

DOMESTIC/INTERNATIONAL TRADE SHOW SERVICE

Services Overview

HNM Global Logistics is well versed in serving the needs of our customers for critical Trade Show Services both in the U.S. and abroad. Domestically, we are very familiar with the various trade show decorators and marshaling yards and have a network of agents worldwide who are also adept at navigating the difficult aspects of coordinating your trade show deliveries and pick-ups.

HNM's Approach

As a team dedicated to customer satisfaction throughout the supply chain, HNM worked diligently to develop a network of partners with whom we execute trade show services while still maintaining total control over the process.

- Bills of Lading/Shipping Labels are created by HNM and provided prior to show.
- Pick-ups are scheduled by HNM based on general or targeted move in schedules.
- HNM tracks every shipment from the pickup to final delivery.
- Deliveries are scheduled by HNM based on general or targeted move out schedules.
- Communication with shipper, consignee, and installation team at show site is customized to each client's needs.
- Deliveries can be arranged for both direct to show-site or to the advanced warehouses in all major tradeshow markets.

Results

The result is a more controlled service solution that ensures satisfaction to the client and decreases the end cost for the client as they do not have to follow up with multiple carriers to ensure a successful show. Exorbitant rates charged by the "show forwarder" are eliminated and clients experience a stress free show. Overall customer satisfaction requires a disciplined approach and the HNM "hands on" approach to Tradeshow Services has resulted in a higher level of satisfaction for our clients.
