

UNITED STATES DEPARTMENT OF COMMERCE
The Secretary of Commerce
Washington, D.C. 20230

May 15, 2014

Mr. Tony McGee
President and Chief Executive Officer
HNM Global Logistics
9603 Satellite Boulevard, Suite 150
Orlando, FL 32837

Dear Mr. McGee:

I am pleased to appoint you to serve on the Advisory Committee on Supply Chain Competitiveness (ACSCC) as a representative from HNM Global Logistics and of the freight forwarding sector. Your term on the Committee will expire on May 15, 2016.

Your experience in the supply chain industry will be an important resource to me and to the work of the ACSCC as it advises me on programs and policies to strengthen the competitiveness of U.S. supply chains. This work strongly supports our efforts to expand U.S. exports of goods and services and to create economic opportunities for American businesses.

As President Obama remarked in February, "Rebuilding our infrastructure is vital to business." As the President's most recent National Export Strategy states, "Improving and maintaining a globally competitive, user-focused U.S. supply chain that is reliable, resilient, and able to offer the necessary capacity is critical to the success of the National Export Initiative." I fully expect the ACSCC to remain focused on specific, actionable, and measurable ways that we, as policymakers, can respond to these important challenges.

I appreciate your willingness to devote your time and effort to the ACSCC. If you have any questions or concerns, please contact David Long, Director, Office of Supply Chain, Professional and Business Services, at (202) 482-0344.

Sincerely,

A handwritten signature in cursive script that reads "Penny Pritzker".
